Train your employees, protect your organization.
DATA SECURITY AWARENESS TRAINING

SecurityMetrics provides three different Data Security Awareness Training courses, specific to your organization’s needs.

DATA SECURITY TRAINING:

Train your workforce in fundamental security concepts and the role they play in protecting your organization. This data security training course covers:

- **IT Security Fundamentals**—Learn fundamental security concepts such as your role as an end-user and how to protect your company’s IT security.
- **Social Engineering Training**—Discover common threats to corporate devices that exploit vulnerabilities such as e-mail, Internet, and social networking platforms.
- **Using Corporate Devices**—Locate and understand common threats to corporate computers, including malicious attacks, and computer best practices.
- **Password Protection Best Practices**—Learn the basics of password protection and how to better safeguard your devices.

TAILORED GUIDANCE

Every organization has different needs. Our Data Security Awareness Training makes it easy for you to customize instruction exclusively for your business and its unique group of employees.

UP-TO-DATE CONTENT

Just as your organization’s business practices must be kept up-to-date to efficiently assist customers, employees must be trained on current security issues and solutions to effectively secure your organization.

A Higher Standard of Service

SecurityMetrics makes it a priority to ensure customer satisfaction.

- We have been awarded prestigious Stevie Awards for helping you reach your data security and compliance goals.
- We have many tools available to assist you in the data security and compliance process.
- With expertise in PCI DSS assessments, HIPAA assessments, and data security, we hold a myriad of credentials and can help secure your data.
- We offer simple and straightforward pricing with a single bid that won’t change.
- To keep communication lines open and eliminate confusion, SecurityMetrics assigns a single point of contact for each project.

Your business is only as secure as its weakest link. Get comprehensive Data Security Awareness Training for your employees to avoid a possible breach.

DATA SECURITY AWARENESS TRAINING

securitymetrics
REAL LIFE EXAMPLES AND APPLICATIONS

Our trainings provide palpable examples, applications, and stories that your employees can relate to and learn from.

HIGH ENGAGEMENT AND INTERACTION

Most employees don’t look forward to a day full of training. Our trainings were created to be highly engaging and interactive to increase the level of retention and organization-wide application.

TRAINING COMPLETION MANAGEMENT

It’s important to know which employees have completed their training, and when. SecurityMetrics Data Security Awareness Training allows you to easily monitor training completion, renewal deadlines, and training quiz scores.

AWARD-WINNING DESIGN

The ability to easily navigate an online tutorial is a fundamental indicator of successful training. Each training module implements an award-winning design that assists in your employees’ course maneuverability.

COMPREHENSIVE TRAININGS

SecurityMetrics provides security training that takes you beyond general security. Other training courses include PCI DSS Security, HIPAA Security and Privacy, and Security Basics.
ABOUT SECURITYMETRICS

SecurityMetrics is a global leader in data security and compliance that enables businesses of all sizes to comply with financial, government, and healthcare mandates. Since its founding date, the company has helped over 1 million organizations protect their network infrastructure and data communications from theft and compromise with exceptional value to customers worldwide. Among other services, SecurityMetrics offers HIPAA assessments, PCI audits, penetration tests, security consulting, data discovery, and forensic analysis.
