

SecurityMetrics

HIPAA COMPLIANCE ONSITE AUDIT

SecurityMetrics HIPAA assessors communicate with you throughout the entire audit process so you're never left wondering what to expect. Clients enjoy working with SecurityMetrics assessors so much that the majority return for compliance certification the following year.

TEAM UP WITH A RELIABLE SECURITY PARTNER

A partnership with SecurityMetrics lends years of data security and compliance expertise to your business. SecurityMetrics' extensive knowledge helps you prepare for, achieve, and uphold security and privacy compliance requirements through guidance in:

- Physical safeguards
- Administrative safeguards
- Technical safeguards
- Business associate safeguards
- Policies and procedures documentation

KEEP YOUR PATIENT DATA SECURE

SecurityMetrics has multiple tools that increase PHI security and assist you in the compliance process.

- Gap analysis
- Risk analysis
- Risk management plan
- Onsite audit
- Meaningful Use attestation
- Vulnerability scanning
- Business associate management
- Penetration testing
- Quality service guarantee
- HIPAA Privacy & Security training
- Mobile security

**HIPAA REQUIREMENTS
CAN BE OVERWHELMING.
SECURITYMETRICS
PROVIDES A CLEAR PATH
TO HELP YOU PRIORITIZE
HIPAA REQUIREMENTS
AND SECURE YOUR MOST
CRITICAL DATA FIRST.
THIS HELPS YOU AVOID
FINES, AUDITS, LOSS
OF CUSTOMERS, AND A
TARNISHED REPUTATION
THAT MAY RESULT FROM
A DATA BREACH.**

COMPLETE YOUR MEANINGFUL USE ATTESTATION

Conducting a HIPAA risk analysis not only gets you a step closer to HIPAA compliance, but also completes a Meaningful Use objective. Eligible hospitals and professionals are required to perform a risk analysis of their EHR as part of Meaningful Use. SecurityMetrics compliance assessors can also assist in completing attestation of Meaningful Use objectives to ensure deadlines are met and incentive payments are received.

PROTECT YOUR BRAND

Ultimately your brand is at risk if a business associate is compromised while transacting your clients' data. As new mandates change the scope of your responsibility, SecurityMetrics has tools to help you evaluate your organization's business associates' risk and assist them in becoming HIPAA compliant.

CREATE A CULTURE OF SECURITY

SecurityMetrics' goal is to assess your situation accurately and help your organization build a work environment where protecting sensitive patient information becomes integrated into your culture. This enables you to:

- Define customized security policies and procedures
- Implement regular staff training on policies and procedures
- Quickly and easily address protocol issues and questions
- Minimize unnecessary exposure to protected health information
- Maintain a strong reputation among your customers

RESOLVE ISSUES FASTER WITH WORLD-CLASS SUPPORT

With a team of audit experts all centrally located in Utah, it never takes long to get an answer to your questions. And if an auditor needs more information before getting back to you with an answer, it's easy to consult with the other auditors since they all work together under one roof. You'll always get a quick response.

ENJOY A CLEAR POINT OF CONTACT

To keep communication lines open and eliminate confusion, SecurityMetrics assigns a single point of contact for each assessment. Your project management team's job is to be as available as possible to you as you work to complete each HIPAA requirement.

FEEL CONFIDENT IN YOUR ASSESSMENT'S ACCURACY

With expertise in HIPAA compliance programs, Payment Card Industry assessments, forensic incident response, vulnerability scanning, penetration testing, card data discovery, security appliances, training, and consulting, SecurityMetrics holds the credentials and expertise to help you reach compliance goals.

ABOUT SECURITYMETRICS

We help customers close data security and compliance gaps to avoid data breaches. We provide managed data security services and are certified to help customers achieve the highest data security and compliance standards.

We're a PCI certified Approved Scanning Vendor (ASV), Qualified Security Assessor (QSA), Certified Forensic Investigator (PFI), and Managed Security provider with 18 years of data security experience.

We help local shops as well as some of the world's largest brands achieve data security through managed services and compliance mandates (PCI, HIPAA, GDPR).
