Easily manage and enroll staff in PCI training.
SecurityMetrics has comprehensive PCI DSS training to protect business data, avoid employ actions that might lead to compromise, and comply with the PCI mandate.

**TRAINING COMPLETION MANAGEMENT**

It’s important to know which employees have completed their training, and when. SecurityMetrics PCI DSS Training allows you to easily monitor training completion, renewal deadlines, and training quiz scores.

**EASY TO USE**

Your employees want PCI DSS Training to be informative and easy to use. Our training has a simple interface to make navigating and completing training easy for your employees.

**ENSURE EMPLOYEE UNDERSTANDING**

Our PCI DSS Training provides a quiz for each training section to ensure your employees understand the material before moving on and completing the training.

**HIGH ENGAGEMENT AND INTERACTION**

Most employees don’t look forward to a day full of training. Our trainings were created to be highly engaging and interactive to increase the level of retention and organization-wide application.

**REAL LIFE EXAMPLES AND APPLICATIONS**

Our trainings provide palpable examples, applications, and stories that your employees can relate to and learn from.

**UP-TO-DATE CONTENT**

Just as your organization’s business practices must be kept up-to-date to efficiently assist customers, employees must be trained on current security issues and solutions to effectively secure your organization.

Your business is only as secure as its weakest link. Get comprehensive payment card industry (PCI) data security standard (DSS) training for your employees to help them avoid situations that may lead to data breach.
TAILORED GUIDANCE
Every organization has different needs. Our PCI DSS Training makes it easy for you to customize instruction exclusively for your business and its unique group of employees.

COMPREHENSIVE TRAININGS
SecurityMetrics provides security training that takes you beyond general security. Other training courses include HIPAA Security and Privacy, Data Security Awareness, and Security Basics.

PCI DSS TRAINING
The payment card industry (PCI) standard applies to those who store, process, or transmit cardholder data. Adequate PCI training can combat fraud, theft, privacy violations, and counterfeiting. Your PCI Security Course covers:

• Guidance on ways to protect payment card information during transactions
• Global data security standards for merchants
• How to comply with PCI requirements when you store, process, or transmit cardholder data
ABOUT SECURITYMETRICS

We help customers close data security and compliance gaps to avoid data breaches. We provide managed data security services and are certified to help customers achieve the highest data security and compliance standards.

We’re a PCI certified Approved Scanning Vendor (ASV), Qualified Security Assessor (QSA), Certified Forensic Investigator (PFI), and Managed Security provider with 18 years of data security experience. We help local shops as well as some of the world’s largest brands achieve data security through managed services and compliance mandates (PCI, HIPAA, GDPR).
