

SecurityMetrics

PCI POLICIES

Employees must be formally trained on PCI compliance regularly. SecurityMetrics' policy templates save you time, energy, and money, so you can focus on your organization.

REQUIRED FOR COMPLIANCE

PCI Requirement 12.1 through 12.10.6 require that organizations maintain documented policies and procedures. Policies should be up to date, written down, and easily accessible to all employees. SecurityMetrics' PCI policies include templates that provide a comprehensive solution for PCI requirements specific to your organization's Self-Assessment Questionnaire (SAQ) and card data environment.

CUSTOMIZABLE POLICY AND PROCEDURE DOCUMENTS

All organizations have different processes to handle, store, or transmit card data. SecurityMetrics offers flexible policy templates that allow you to easily customize PCI policies to address specific processes and requirements contained in your organization's SAQ.

BUILT TO WORK WITH EXISTING POLICIES AND PROCEDURES

Many organizations have already established some of the policies required for PCI compliance. SecurityMetrics' flexible templates let you keep your existing policies and implement only those missing from your organization—saving you time, money, and headaches that accompany process changes.

COMPLIANCE EXPERTS

With expertise in Payment Card Industry assessments, forensic incident response, vulnerability scanning, penetration testing, card data discovery, security appliances, training, HIPAA compliance and consulting, SecurityMetrics holds the credentials and expertise to help you reach compliance goals. If you have questions, you can rest assured we have answers.

ABOUT SECURITYMETRICS

We help customers close data security and compliance gaps to avoid data breaches. We provide managed data security services and are certified to help customers achieve the highest data security and compliance standards.

We're a PCI certified Approved Scanning Vendor (ASV), Qualified Security Assessor (QSA), Certified Forensic Investigator (PFI), and Managed Security provider with 18 years of data security experience.

We help local shops as well as some of the world's largest brands achieve data security through managed services and compliance mandates (PCI, HIPAA, GDPR).
