Enjoy an easy-to-start, straightforward PCI program that increases merchant compliance.
Ensuring your merchants meet PCI requirements can be a challenging and complex responsibility. SecurityMetrics PCI program guides your merchants through the PCI validation process, helping you increase merchant satisfaction and freeing up your time. Your merchants benefit from SecurityMetrics’ 20+ years of payment data security experience, PCI training, expert advice and support, targeted emails, automatic reporting to the Payment Brands, and the SecurityMetrics Threat Intelligence Center.

**EASILY MANAGE MERCHANT SUCCESS**

The Partner+ Portal makes it easy to track each merchants’ PCI compliance. Using the online portal you will be able to see enrollment, create parameters to track specific merchants, and view the success of your program. You will also be able to create specific reports, monitor merchant outreach emails, and visualize campaign enrollments. The Partner+ Portal includes SecurityMetrics FastPass, which increases your scoping accuracy by creating customized question flows and auto-populating merchant PCI questionnaires. You are also provided with SecurityMetrics Touchpoints, a tool that allows you to ask merchants for data points outside of PCI.

**PCI Security Program**

This scoping process will determine which PCI standards apply to you. When you have completed the scoping process you will be presented with a Self-Assessment Questionnaire (SAQ) that you must complete to fulfill your PCI validation. Please choose the answer that best describes how you handle credit card information. If you have more than one merchant ID and they do not all process the same way, please call 800-557-4797.

Do any of the following apply to you?
- I store full credit card information electronically, i.e. accounting software, etc.
- I direct my customers to send full credit card numbers through email and/or fax.
- I record and store phone calls electronically where full credit card information is provided.

- One or more of these apply to me
- None of these apply to me

With your current credit card processing method, the PCI requires that you complete the Self-Assessment Questionnaire (SAQ) 0.

SafesPaymentsPlus is a step-by-step compliance reporting over the phone – a faster, more effective way to report and maintain compliance.

Are you interested in someone contacting you regarding SaferPayments Plus?

- Yes
- No

REDUCE MERCHANT ATTRITION

Give your merchants the simplified and easy-to-navigate PCI experience they need to remain stress-free and happy in your program. SecurityMetrics experts with 20+ years of payment data security experience will work alongside your merchants each step of the way to eliminate guessing during the SAQ process. Your merchants will also be given the latest PCI education so they can become confident in their efforts to protect payment card information.

OFFER YOUR MERCHANTS ADD-ON PRODUCTS

SecurityMetrics offers additional products that can increase your revenue and add value to your merchants, such as:

- **SecurityMetrics Managed PCI** to give your merchants outbound support.
- **SecurityMetrics Vision** to scan for internal vulnerabilities and provide log management.
- **Security Awareness** and **PCI Security Training** available for a range of businesses and employee roles.
- **Security Policy Templates and Procedure Documents** to help meet security policy requirements.
- **SecurityMetrics Pulse** to fill in the security gaps for merchants with a managed security team.
- **Antivirus Essentials** to protect against malware and receive 24/7 support to manage and set up your antivirus software.
**PCI PROGRAM PACKAGING**

WHY CHOOSE SECURITYMETRICS

IT and security are an ever-changing environment. SecurityMetrics' products and services are constantly updated and improved to provide an in-depth look into payment security based on recommendations from the SecurityMetrics Threat Intelligence Center.

The SecurityMetrics Threat Intelligence Center is focused on helping organizations assess their threats and vulnerabilities, get actionable and prioritized reports, and remediation. As the most experienced vendor in the industry of 20 years, and through award-winning support, we help secure all aspects of payment data acceptance, transmission, and storage.

SecurityMetrics offers more services than a traditional cybersecurity vendor. SecurityMetrics is PCI certified in Qualified Security Assessor (QSA), Approved Scanning Vendor (ASV), Certified Forensic Investigator (PFI), Qualified P2PE Application Assessor (P2PE QSA), Qualified Payment Application Assessor (PA-QSA), Qualified PIN Assessor (QPA), and as a Managed Security provider with over 20 years of data security experience.
ABOUT SECURITYMETRICS

We secure peace of mind for organizations that handle sensitive data. We hold our tools, training, and support to a higher, more thorough standard of performance and service, so you never have a false sense of security.

We are a PCI certified Approved Scanning Vendor (ASV), Qualified Security Assessor (QSA), Certified Forensic Investigator (PFI), and Managed Security provider with over 20 years of data security experience. From local shops to some of the world’s largest brands, we help all businesses achieve data security through managed services and compliance mandates (PCI, HIPAA, GDPR, HITRUST). We have tested over 1 million systems for data security and compliance.
