Tailored Guidance
Every organization has different needs. Our Data Security Awareness Training makes it easy for you to customize instruction exclusively for your business and its unique group of employees.

Up-to-date Content
Just as your organization's business practices must be kept up-to-date to efficiently assist customers, employees must be trained on current security issues and solutions to effectively secure your organization.

Real life Examples and Applications
Our trainings provide palpable examples, applications, and stories that your employees can relate to and learn from.

Every organization is unique. SecurityMetrics has different training courses to educate and train employees specifically on the situations they face.

High Engagement and Interaction
Most employees don't look forward to a day full of training. Our trainings were created to be highly engaging and interactive to increase the level of retention and organization-wide application.

Training Completion Management
It's important to know which employees have completed their training, and when. SecurityMetrics Data Security Awareness Training allows you to easily monitor training completion, renewal deadlines, and training quiz scores.

Comprehensive Trainings
SecurityMetrics provides security training that takes you beyond general security. Other training courses include PCI DSS Security, HIPAA Security and Privacy, and Security Basics.

About SecurityMetrics
SecurityMetrics is a global leader in data security and compliance that enables businesses of all sizes to comply with financial, government, and healthcare mandates. Since its founding date, the company has helped over 1 million organizations protect their network infrastructure and data communications from theft and compromise with exceptional value to customers worldwide. Among other services, SecurityMetrics offers HIPAA assessments, PCI audits, penetration tests, security consulting, data discovery, and forensic analysis.
